

3 April 2007

To Whom It May Concern:

The purpose of this letter is to recommend and support Ms. Donna Malone as a canine obedience trainer and behavioral consultant.

I've had the opportunity of participating in her basic obedience class with my very exuberant and dominant German shepherd. I was very impressed with her methods and insight into the individual relationship between class members (including me) and their pets.

It was a learning experience for me and my dog. She was very professional, knowledgeably patient and very humane while still being dominant.

I personally have had contact with her since and besides keeping educated in training she has kept very up to date with behavioral issues and behavioral training. Ms. Malone is even familiar with medications (and when to recognize veterinary assistance is needed or required.)

In conclusion, I consider her a valuable asset to the veterinary community. I have personally referred clients to her and will continue to do so.

Respectfully,

A handwritten signature in black ink that reads "Lynn Svoboda, D.V.M." The signature is written in a cursive, flowing style.
